# FOOD PACKAGING TOOLING & SERVICE

- FOOD & BEVERAGE CANNING & PACKAGING TOOLING SPECIALISTS
- CUTTING TOOLS SUPPORT CENTRE FOR HASSIA/ERCA
- YOGHURT CUTTING TOOLS

The food pack and canmaking tooling support centre at Hofmann Engineering provides world class manufacturing capability for specific customer requirements. A single source, fully managed service for the manufacture of precision canmaking and food packaging tooling, including die refurbishment and maintenance is provided. Re-engineering services are also available. A purpose built, climate-controlled manufacturing facility, and a specialist team of highly skilled tradespeople, ensure that the precision and high standards demanded of this industry are achieved. A dedicated section ensures shorted lead times, fast delivery and rapid response times to all breakdown and maintenance work.

## CAPABILITIES

### MANUFACTURE:

- All canmaker's tooling requirements
- Canning and end making tooling
- New end making double dies
- Seamer tooling - seaming chucks and seaming rollers

### REFURBISHMENT:

- Hassia and Erca tooling/form fill and seal
- Canmakers' die sets

### RE-ENGINEERING SERVICES | EMERGENCY BREAKDOWNS

### YOGHURT CUTTING TOOLS

### THERMO FORM TOOLING

### CANMAKING TOOLING

### FOOD & BEVERAGE CAN TOOLING

### Z BARS

### RE-ENGINEERING SERVICES

### HIGH PRECISION TAB DIE TOOL

Enhanced life using high performance coatings.

### EQUIPMENT RANGE

#### CAD/CAM DESIGN SOFTWARE INCLUDING

- Catia v5
- Unigraphics NX4-6
- ProE

A RANGE OF PRECISION 2-, 3- & 5-AXIS NC MACHINES

#### INSPECTION & METROLOGY LABORATORY INCLUDING:

- Coordinate measuring machines.
- Laser trackers.
- Climate-controlled environment.

### CUTTING TOOLS SUPPORT CENTRE

Hofmann engineering offers world class toolmaking capabilities and provides a single source, fully managed service to customers.

- Expertise in precision toolmaking.
- Excellent technical knowledge of yoghurt cutting tools.
- World class quality and workmanship.
- 2.5 times more price competitive than OEM.
- 10 to 12 week lead time on refurbishments.
- Fast quotation process.
- Technical support.

### PRODUCT IMPROVED TAB DIES

Titanium coated for longer service life.

### CERAMIC DOMER PRESSURE RING DIE

For forming bottom end of can.

### DEMONSTRATED SUCCESS

Hofmann Engineering has a vast experience in providing engineered solutions to various food packaging companies.
